### PROFILE

Hi there! I'm Prabhu, currently pursuing a degree in Computer Science with a passion for Web development. I thrive on embracing new challenges and constantly seek opportunities to grow and enhance my skills. I highly value critical thinking, punctuality, and attention to detail in everything I do. My journey from being a complete novice to self-learning web development has been quite a ride, and I'm eager to continue expanding my knowledge and expertise in the field!

### PROJECTS

#### Image Search Engine

Image Search Engine is an innovative app leveraging Pexels API, allowing users to efficiently search and retrieve images based on specific queries.

- Implemented a feature enabling users to view the name of the photographer associated with each image
- Incorporated functionality to seamlessly link users to the photographer's profile.
- Provided users with the ability to access the original image directly through a convenient link.

#### Product Management System

Developed a Product Management System utilizing Laravel and MySQL, offering comprehensive CRUD functionality. Implemented multi-authentication to differentiate user and admin privileges, ensuring efficient management of users and products within the system..

- Utilized XAMPP as the local development environment, leveraging its Apache server.
- Users can add, edit, and delete products
- Admin have additional privileges to delete both users and products..

### CERTIFICATION

TECHTRIX-2023 Hackathon
